CHANDANA SREENIVAS

Supply Chain Analytics | Inventory Management | Demand Planning | Procurement & Logistics | SAP ERP

+1 314-489-3717 · chandana.sreenivas@slu.edu · linkedin.com/in/chandana-sreenivas-135795218 · St. Louis, MO

Professional Summary

Supply chain analyst with **2.5 years of procurement and supplier integration experience** at Alstom Transport and an M.S. in Supply Chain Management (GPA 3.94). Won **1st Place** in the **Rawlings** and **Pythian TECH-CHAIN** challenges and **2nd Place** at ASCM InChainge. Skilled in **SAP ERP**, SQL, Python and Power BI for **demand forecasting**, **inventory management** and **S&OP**.

Education

Master of Science in Supply Chain Management Jan 2025 – Dec 2026

Saint Louis University, St. Louis, MO

- GPA: 3.94/4.0 | Coursework: Supply Chain Analytics, Demand Planning, Inventory Optimization, Pricing, ERP Systems

Bachelor of Engineering in Mechanical Engineering Aug 2018 – Jul 2022

Siddaganga Institute of Technology, Tumakuru, India

- CGPA: 8.77/10 | Coursework: Operations Management, Manufacturing Systems, Statistical Analysis, Project Management

Professional Experience

Supply Chain Analytics Intern — Spoilage & Inventory Optimization Jan 2026 – May 2026

Unide Stores, Madrid, Spain (Remote)

- Flagged **142 stores** with replenishment–demand mismatch (**33 High Risk**) by analyzing perishable spoilage data in Python
- Projected a **25–35% reduction** in total spoilage cost by correcting replenishment frequency for the 33 High-Risk stores
- Projected a **40–55% reduction** in total spoilage cost for all 142 stores using retail industry replenishment benchmarks
- Presented replenishment recommendations to the Unide **leadership board** and stakeholders in Madrid (May 2026)
- Linked store demand to spoilage risk by building a **Streamlit** app scoring 25 census variables with KD-Tree trade areas
- Enabled data-driven procurement by tracking inventory turnover, spoilage rate and fill rate in **Power BI dashboards**

Supply Chain & Warehouse Operations Intern Feb 2026 – May 2026

Ready Readers, St. Louis, MO

- Reorganized the warehouse layout and storage zones by mapping inbound-to-outbound material flow with **Lean** principles
- Streamlined the pick-pack-ship process by identifying fulfillment bottlenecks and delivering corrective action plans
- Strengthened **inventory control** and order accuracy by aligning stock levels with demand using **S&OP** principles

Research Assistant Jan 2026 – Present

HCI Lab, Saint Louis University, St. Louis, MO

- Converted **Gazepoint** eye-tracking data for **17 participants** into AOI metrics (dwell, TTFF) via a **Python pipeline**
- Quantified user attention and cognitive load in **SAP** usability studies by running **eye-tracking** experiments
- Supported geospatial mapping studies by collecting **ArcGIS** route/demographic data and training students on ArcGIS
- Developed **SAP ERP** and AI-workflow instructional content, synthesizing findings in Python and R for publications

Teaching Assistant Jan 2026 – Present

Saint Louis University, St. Louis, MO

- Strengthened student analytics skills by leading hands-on **SQL**, **Tableau** and **R** sessions for supply chain problems
- Supported faculty by grading assignments, mentoring students and developing course materials for analytics courses

Project Management Intern Oct 2025 – Nov 2025

Excelerate, Remote

- Delivered all milestones on time by managing timelines and stakeholder updates with **Agile/Scrum** in a remote team
- Maintained **SLA** adherence across deliverables by producing project documentation, status reports and risk logs

Mechanical Engineer — R&D & Supply Chain Integration Aug 2022 – Jan 2025

Alstom Transport, Bengaluru, India

- Achieved a **10% reduction in cost and lead time** by leading **Design for Supply Chain (DfSC)** initiatives with sourcing
- Cut assembly time and rework by **15%** by applying DFM/A and **Lean** principles, tracked through **KPI dashboards**
- Improved **supplier performance** and material availability by running alternate-supplier and cost-structure analyses
- Ensured schedule adherence across milestones by managing engineering and **procurement** requirements in **SAP ERP**
- Reduced warranty claims by refining designs with suppliers based on data-driven field performance analytics

Case Competitions

1st Place — Rawlings AI-Enabled Supply Chain Exception Management Challenge Oct 2026

Team Case Competition, Rawlings Sporting Goods

- Won by identifying the **top 10 SKUs** needing management attention and designing **AI-supported exception management**
- Delivered an **executive presentation** and an interactive **HTML decision tool** to prioritize SKU-level inventory exceptions

1st Place — Pythian TECH-CHAIN Case Competition: Supplier Product-Data Quality Oct 2026

Team Case Competition, Saint Louis University

- Won 1st place by designing an **AI-assisted** Prevent–Detect–Decide–Learn system to stop supplier data errors before returns
- Raised error detection from **20% to 83%** by adding category norms to rules, tested on **8,746 cases** from 4,000 Wayfair products
- Cut mis-mapped supplier records from **67% to 0%** by standardizing supplier intake formats in a 7-part **Python** notebook
- Projected **$34.7K net monthly savings** ($48.6K gross) at **1.4 FTE** by modeling base, low and high cost scenarios
- Built **SpecCheck**, a live web app with supplier intake checks, a cost-ranked review queue and **supplier scorecards**

2nd Place — ASCM InChainge Supply Chain Competition 2026

Saint Louis University

- Placed 2nd nationally in a team-based supply chain strategy and analytics challenge against graduate programs

Academic & Consulting Projects

Trucking Pricing Analytics Tool — J.B. Hunt vs. Covenant Logistics Nov 2026

Pricing Course Project, Saint Louis University

- Analyzed **spot vs. contract rate** volatility across freight cycles by comparing J.B. Hunt (JBHT) and Covenant (CVLG)
- Built a **Streamlit** pricing app with a cost simulator, **lane rate estimator** and AI analyst chatbot for carrier pricing decisions

Karviva Beverages — Supply Chain Consulting Project

Saint Louis University

- Recommended inventory policy, **risk pooling** and **service-level** improvements by modeling demand and supply contracts
- Selected to present findings at the **CEO symposium**, communicating insights to client business leaders

Crop Safeguard System — Machine Learning & Motion Detection Aug 2021 – Jul 2022

Academic Project

- Led a 4-member Agile team to design and deploy an ML-based field monitoring system integrating object detection and motion sensors to deter animals.

Conferences, Posters & Publications

GEO-Resolution Conference — Poster Presentation 2026

National Geospatial-Intelligence Agency (NGA) & Saint Louis University, St. Louis, MO

- Presented **"AI to Job-Ready Proof"**: a Mexican restaurant site-selection tool ranking St. Louis census tracts by opportunity
- Scored tract opportunity by applying **OLS/Ridge regression** to **ACS census** demographics and competitor review data

CSCMP Poster Presentation Competition 2025

Council of Supply Chain Management Professionals

- Presented *"Bridging Data and Dough: Sustainable Bakery Demand Forecasting"* on reducing bakery waste via forecasting

Published Research:

- *Impact of Entrepreneurial Orientation and Innovation on Indian Startups* — ICIEM 2021
- *A Study on Entrepreneurial Orientation and Innovation on Startups of Indian Origin* — ICRDME 2022

Technical Skills

Supply Chain Planning	Demand Forecasting, MAPE, S&OP, MRP, Inventory Management, Safety Stock, EOQ, ABC
Procurement & Logistics	Supplier Scorecards, Vendor Management, Cost Analysis, Pricing, Logistics
ERP & Programming	SAP ERP (MM), SQL, Python (Pandas, NumPy, Streamlit), R, Statistical Modeling, PuLP
Visualization & GIS	Power BI, Tableau, ArcGIS, Folium, Excel (Pivot Tables, XLOOKUP), Gazepoint
Continuous Improvement	Lean Six Sigma Green Belt (IISE), DfSC, DFM/A, Root Cause Analysis, Process Optimization
Project Management	Agile/Scrum, DOORS, Stakeholder Management, Exception Management, Data Quality

Certifications

- **Lean Six Sigma Green Belt Certification** — IISE; process improvement, waste reduction and quality management
- **IBM Data Analytics Professional Certificate** — Coursera; data analysis, SQL, Python and visualization
- **Supply Chain Management Specialization** — Coursera; logistics, operations, procurement and supply chain strategy

Leadership & Activities

- State-level Medalist — International Chinthana Mathematics Examination
- Represented Karnataka State — State Level Shuttle Badminton Championship
